# About

Webpage that will find you recipes  
that you can make right now with  
ingredients you have on hand.  
Add recipes to a favorites tab and  
create a meal plan for the week.

# Future Development

## Cloud

Setting the project up on an EC2 instance

---

## Uploads

Allow users to upload their own recipes

---

## Additional Features

Adding additional feature such as creating meal plans to include calorie counting

Thank You
